

Biocat-G

COMPOSITION:

Total organic matter	75 % w/w
Total nitrogen (N).....	10 % w/w
Potassium oxide (K ₂ O)	5 % w/w
Sulphur trioxide (SO ₃).....	8,5 % w/w
Total humic extract.....	29 % w/w
Humic acids.....	8,5 % w/w
Fulvic acids.....	20,5 % w/w

DESCRIPTION:

BIOCAT-G is a solid NK organo-mineral fertilizer, whose particular grain size facilitates an adequate application homogeneity, ensuring proper nutrients distribution. Due to its sulphur content, slow the nitrification process which prolongs nitrogen liberation time.

RECOMMENDED DOSES:

Extensive crops:

Soil preparation:	200-500 kg/ha
Top dressing:	150-200 kg/ha

Horticultural:

Pre-transplant:	200-500 kg/ha
-----------------	---------------

Fruit trees:

Localized:	30-50 g/plant
------------	---------------

Ornamental and nursery:	1,5-2 kg/m ³ substrate
-------------------------	-----------------------------------

WARNINGS:

The product does not require special storage measures. As general storage measures, sources of heat, radiation, electricity and contact with food should be avoided. Keep away from oxidising agents and from highly acidic or alkaline materials. Store the containers between 5 and 35° C, in a dry and well-ventilated place. Store according to local legislation. Observe indications on the label. Transportation is not dangerous.

COMPATIBILITY:

It is compatible with the most usual fertilizers.

P102: Keep out the reach of children.

P270: Do not eat, drink or smoke when using this product.
