

COPPER[®]

speed

DOSIS AND APPLICATIONS STAGES

FARMINGS	Foliar Applications	Fertirrigation
Market Gardening:		
Tomatoes	150 - 200 cc per 100 litres of water	8 - 10 litres/hectare in one application
Pepper, Bean, Cucumber,2	150 - 200 cc per 100 litres of water	6 - 10 litres/hectare in one application
Onion	Total: 10 12 litres/hectare. 3 - 4 treatments at 3 - 4 litres/hectare by application	
Fruit Trees:	Defoliation	Do not use during flowering. Some varieties of nectarines (Armking), apple (Golden), Pear, Plum tree, are very sensitive to late treatment with copper (stage B, C). Some problems of russeting could appear especially in cold areas.
Apple tree, Peach tree, Pear Tree, Apricot Tree, Cherry Tree,2	2 litres per 100 litres of water (8 - 10 litres of product per hectare) Autumn - Winter: 500 - 600 cc per 100 litres of water (2 - 3 litres of product per hectare)	
Citrus	150 - 200 cc per 100 litres of water (3 - 4 litres of product per hectare)	do not use when oranges change of color
Olive Tree	500 - 600 cc per 100 litres of water (5 - 10 litres of product per hectare)	

Liquid Complex of Copper under an organic form with strong power of penetration and translocation
Corrector of copper deficiency with a fungic and bactericid action

COMPOSITION (w/v):

Copper (Cu) water soluble: 6,0 %
Complexed by Polycarboxylics Acids

pH: 9 / Density: 1250 g/L

Cu

PROPERTIES

COPPER SPEED is a liquid complex of Copper for drip and foliar application with strong power of penetration and translocation.

His use enables the efficient control of Copper deficiency and bacteria attacks such as : xanthomonas, pseudomonas syringae, Clavibacter michiganense more particularly on tomatoes, beans, Citrus, Olive tree, ...

INCOMPATIBILITIES

COPPER SPEED is compatible with the most of products of the market. In case of doubt, please make a test before general treatment.

CAUTIONS

When using product, do not eat, drink, neither smoke. Avoid any contacts with eyes and skin. In case of contact with skin, rinse immediately with plenty of water.
Storage

Keep the product in its original packing tightly closed, protected from light and humidity and in a well-ventilated place. Do not store under +5°C.

RECOMMENDATIONS

Guarantee and user's risk

The producer guarantees product's composition and content in its original packing. Users and handlers of this product should assume the risks derived from factors not depending on the manufacturer. The manufacturer doesn't assume consequences resulting from storage or handling not in conformity with our recommendations.
